Hospital Highlights

In 2024, HaysMed achieved the prestigious five-star rating from CMS and national recognition as a Top 100 Rural & Community Hospital from the Chartis Center for Rural Health. HaysMed also became the first facility in Kansas to perform the groundbreaking Detour surgical procedure for peripheral artery disease.

Additionally, the hospital is completing a hybrid operating room to accommodate nuclear medicine, echocardiogram, and EKG services. HaysMed also created a new partnership to expand telehealth urology services, providing greater convenience for patients seeking care.

Leadership

As the region's only tertiary care center, HaysMed is a private, not-for-profit hospital committed to exceptional healthcare. Guided by the mission "to help people be healthy" and core values of Respect, Compassion, Spirituality, Trustworthiness, Excellence and Professionalism, HaysMed leadership is building a sustainable healthcare model for future generations through advanced specialization, primary care excellence and regional collaboration.
